

Talha Rozajac

Junior Web Developer & Workflow Systems Builder

Madinah, Saudi Arabia | +966 56 052 9506 | greenhuntert@gmail.com
Portfolio: <https://talha-portfolio-blond.vercel.app> | GitHub: github.com/GreenHunterT

PROFILE

Self-taught web developer focused on practical workflow systems for small businesses. Built and deployed a database-backed request portal with owner authentication, public intake links, private dashboards, request tracking, owner replies, and secure access patterns using Supabase. Strong academic background in the Computer and Engineering Subjects Path with an Excellent+ result.

FLAGSHIP PROJECT

FlowDesk — Request Workflow Portal

Live: <https://flowdesk-psi-seven.vercel.app>

- Built a database-backed request workflow portal where business owners create public intake links and manage customer submissions through a private dashboard.
- Implemented Supabase authentication, Postgres tables, Row Level Security policies, and owner-only access to workflows and requests.
- Created public customer request forms that work without customer accounts, plus private tracking links for request progress.
- Added status management, owner replies, tracking-token/RPC access pattern, clean request views, and responsive UI.
- Deployed on Vercel and tested the full owner/customer flow: sign-in, workflow creation, public submission, tracking page, reply, and status update.

EDUCATION

Secondary School Graduation Certificate — Computer and Engineering Subjects Path

Ibn Heban Secondary School, Jeddah, Saudi Arabia
Natural Science Track | CGP: 98.71 | Grade: Excellent+ | 2024-2025

Relevant technical subjects: Software Engineering, Artificial Intelligence, Cyber Security, Data Science, Digital Technology, Internet of Things, Engineering Design, and Graduation Project.

TECHNICAL SKILLS

Frontend

HTML, CSS, JavaScript, responsive UI, DOM manipulation

Backend / Database

Supabase Auth, Supabase Postgres, Row Level Security, RPC functions

Programming / Automation

JavaScript, Python, form handling, localStorage, client-side data processing

Tools / Deployment

Git, GitHub, Vercel, VS Code, Live Server

Product / Workflow

Public/private user flows, workflow dashboards, request portals, tracking links, management systems

LANGUAGES

Arabic — professional

English — fluent

Bosnian — fluent

Swedish — basic

STRENGTHS

Pattern recognition

Strategic thinking

Clear instruction under pressure

TARGET ROLES

Junior Web Developer

Workflow Systems Assistant

Operations Support

Frontend Support
